Web Developer Intern   *May 2019-July 2019*

- Built their Backend Service Using NodeJs
- Built AutoResume Creator Using NodeJs
- Develop their Frontend using ReactJs

Projects

- **SlackBot**: This is built over python and we can use this bot inside the slack app.I just create a predefined general question and answer list regarding a project in a json file.so that any newbie developer can solve their general query. This helps in saving time for senior developers.
- **InfinixChat**: This is a chat System built on react.js and redux and we use firebase for database.There are login or signup features also.so that only authenticated users can chat in this system.

EDUCATION

NIT Kurukshetra   **Kurukshetra, India**
Bachelor of Technology, Information Technology (GPA: 8.42/10)   *July 2017-May 2021*

Euro International School   **Rewari, India**
